Address: Ambari, Near Dakpathar Bus Stand,
Vikasnagar, Dehradun

About Me

I'm a full-stack web developer who enjoys building complete web applications, both front-end and back-end. I'm detail-oriented, quick to adapt, and love solving problems. I'm always learning, and I'm looking for a role where I can grow as a developer and contribute to real-world products.

Skills

Languages & Tools : JavaScript, HTML5, CSS, Python

Frameworks : MERN Stack

Azure Web Services and Azure AI

Other : Git, EJS, REST APIs, Gamepad Web API

Projects

AI Enabled ATS

AI based advance resume screening Project

- Utilizes GPT 4.0 model for context aware screening
- Reduce bias by anonymization

AI Multitmodal Summarizer

A multimedia summarization Project

- Leverages Azure web services along with Azure AI to provide a multimodal summarization capability
- Built using the MERN stack providing a responsive modern interface

Blog Application

A full-stack blogging platform

- Users can register, log in, and manage their blog posts
- Posts are stored in MongoDB and organized by date, tags, and category.
- Includes a clean, responsive UI and intuitive navigation.
